

# NOMIS-ISTA Fellowship Program

## Call for proposals

The NOMIS Foundation and the Institute of Science and Technology Austria (ISTA) have opened a new call for proposals for the NOMIS-ISTA Fellowship Program, an **interdisciplinary basic research program** for exceptional postdoctoral scientists.

The fellowship program provides postdocs with the **freedom to work on big unanswered questions and high-risk research** at the intersection of two or more scientific disciplines. ISTA offers an enabling and collaborative environment, with dedicated mentorship from world-class, established scientists.

**Application deadline:** June 13, 2024

Proposals are invited in the following fields:

**Biology | Neuroscience | Physics | Chemistry | Astronomy  
Data & Computer Science | Mathematics | Earth Science  
& related disciplines**

For more information visit: <https://ist.ac.at/en/education/postdocs/nomis-fellowship>

ISTA is committed to equality and diversity.

### Benefits:

- Cutting-edge and state-of-the-art resources: scientific service units, research and travel funds
- Freedom to explore high-risk concepts: three-year fully funded position
- Open, collaborative, interdisciplinary research environment
- Enabling framework in which to develop interdisciplinary skills; dual mentorship
- Scientific leadership training and career development support
- Joining ISTA's and the NOMIS Foundation's global networks of exceptional, pioneering researchers
